What makes Fusion H²O?

Fusion H²O is a bottled, natural mineral spring water, drawn from the foot hills of the East Javan mountains from a mineral spring 100 meters below the ground. Fusion H²O is a wholly 100% Australian owned brand, managed and distributed by Fusion Group Perth Pty Ltd, a local Perth based Australian company.

Fusion H²O entered the Australian bottle water market in November of 2009 and is available throughout Australia through most major independent supermarkets, retailers and distributors.

To see where you can buy Fusion H²O from or to become a distributor or stockist check out our website www.fusionh20.com.au for more information.

- ▶ Customised Fusion H²O cap seal
- ▶ Environmentally friendly, streamlined plastic mould made with 20% less plastic than other bottles on the market, making it easier to recycle
- ▶ Semi translucent sports label, complete with mineral table, health information & barcode
- ▶ 10% of ALL profits from every bottle sold goes to Variety Children's Charity
- ▶ Indented sports grip, great for workouts, riding & sports
- ▶ Drawn from the natural mineral springs of the East Java Mountains, Fusion H²O is a soft, high mineral count water that is bottled in artesian style but instead of being mere bore water, Fusion H²O is pure; drawn from a deep natural mineral spring
